

Eagle Nest 3

Features

Eagle Nest 3, wholly manufactured in titanium, is included in the category of mobile anchorages and is certified in accordance with EN 795 regulation.

The high resistance of this device, together with its low weight, provide extreme reliability combined with ease of assembly (can be fully assembled and disassembled by a single operator) which further speeds up rescue operations.

The wide basic opening - 2x2m - ensures high stability and a large working area, thus facilitating any type of rescue operation, even in industrial environments.

Accessory foot Eagle Nest 3, Eagle Nest 2

maximum height
—2702mm

adjustable through
—5 positions

Material
—Titanium

Overall weight
22 Kg

Load capacity
3 KN 300Kg

certification according to
EN 795
standard

TITANIUM

Ti-3Al-2,5V alloy, excellent impact resistance, great flexibility, exceptional resistance to acids and salt corrosion.

This alloy is as resistant as steel but 56% lighter.

Compatible with

- snow pickets
- ice screws
- rock expansion bolts

Certified for lifting of
3 persons

Certifications:
CE/TS 16415 : 2013
EN795

Backpackable and divisible.

Material: cordura 500
Abrasion-resistant

FERNO
concept

LIGHTWEIGHT, RESISTANT, TRANSPORTABLE, EASY.

These are the key words describing Eagle Nest design, capable of transforming these simple adjectives into real strengths.
